A Fable of Music and the Mind

“In the one life we are given, we have the opportunity to give to others with our time and talent.”

And so it is that Dr. Nicolas Bazan gives hope to the world with his life's dedication to neuroscience, with his exemplary and generous mentoring, as he works to preserve and protect our greatest gifts - the mind and sight. Dr. Bazan, an internationally recognized scientist, speaker and professor is the Director of the LSUHSC Neuroscience Center of Excellence. His story, *Una Vida*, is one with a mission - to raise awareness, inspire hope & find a cure for diseases of the brain (Alzheimer's, Parkinson's, stroke, epilepsy and traumatic brain injury) and the eye (age related macular degeneration, retinitis pigmentosa and Usher's syndrome).

Born in the tiny town of Los Sarmientos in Tucuman, Argentina, Nicolas Bazan's defining moment was witnessing an aunt suffer a seizure while walking him to a music lesson when he was a young boy, putting him on the path to becoming one of the world's premier neuroscientists.

"It is this hope that I wish to share with others through Una Vida. It has allowed me to express my thoughts and emotions surrounding neuroscience research and the exploration of cellular elements and molecular switches that underlie the components of the mind and the eyes. To be able to impart these views to others and to provide readers with the hope and optimism that the story of Una Vida ultimately presents is equally as important and rewarding as the pursuit to understand, prevent, and cure." -Dr. Nicolas Bazan

Nicolas Bazan Wines are the culmination of his life experiences:
research, travel & an appreciation for memorable flavors.

Carefully crafted, the four Nicolas Bazan wines stand alone and complement different dishes. This premier collection exhibits a range of satisfying styles reflecting the finest Pinot Noir grown in America's top producing locale: the Willamette Valley of Oregon.

UNA VIDA

The UNA VIDA Pinot Noir shares its name with a novel written by Nicolas Bazan that has recently been made into a movie already receiving accolades and awards for a storyline that supports an understanding between music and the mind, with 70% of Dr. Bazan's proceeds being donated to research. As a wine, Una Vida captivates the palate and provides an opportunity for sensory exploration.
